Enforcement Police and Sheriff departments have strong ties to Freemason societies. You can often find their masonic mbolism in their logos. They are often instructed to send rnalists, researchers, gangstalking victims, and Targeted dividuals to mental wards to get rid of them, if they can't find an excuse to arrest them.

Besides MKUltra, the CIA/DoD did several deadly experiments on an unknowing ÚS population.
This included spraying deadly bacteria over American towns, resulting in deaths, and injecting pregnant women with radioactive particles, just to name a few. They are also believed to be behind the assassination of US journalists.

Symbolism and code words revealed by the FBI seems to further confirm all of this.

The use of underground tunnels to sexually abuse children is very similar to The Finders operation beneath nurseries. They talked about Haitian "pizzas" when the Clintons were "helping" in Haiti.

Targeted Individual (TI) – A person being tortured by electronic weapons (often called "touchless torture"). Perps often use microwaves

When David Stockman, economic adviser to Ronald Reagan, was asked what he would replace government with, he answered: "When you remove cancer from your body, what do you replace it with?"

Gangstalking & the TI program are seen as a way for the elites to get rid of people who meet the NWO's definition of "undesirables." They want a small population of people they can easily control and who add to their power (those who pay a lot of taxes and don't question authority or the news).

FBI Anon

Apparently, many in the FBI are sicken that they have to keep the above secret from the masses.

They have given information out about pedophilia symbols and the CIA Finders cult. They are worried if they give all the information out that there would be riots in the streets and complete anarchy.

Again, are they trying to do the right thing or is it another group seeing a huge power vacuum coming up once this is all exposed?

Internet routers have been shown to be able to be turned into through-the-wall cameras. It is believed hat 5G and even regular cell towers have that ability built-in. It is also believed they can focus their nicrowaves (what all cell phones and WiFi routers use) on people like a weapon.

At the bottom, the ones providing the goods and services to be stolen, is the working class. The elites encourage all working class parents to push their children into going to college and owning a home so they can become debt slaves spending most of their life working it off and giving their money to the bankers. To pay it off, the children are encouraged to get high paying corporate jobs (so they can't do any meaningful tax planning like the elites do) which means more tax money for the government entities Finally, the working class is brainwashed into thinking that the US military can do no wrong and that we need constant war, even if that includes going over seas to kill innocent people or pelieving false flags operations without question. Furthermore, home ownership is seen as a way for the elites to isolate and control people. It is believed the elites turned to their evil ways
